CEPC Organization (2013-2018)

CEPC Organization (2018-)

Future plan

Formulate a “body” would be helpful !

- working group formed soon
- a draft MoU (light & open..) Mid-December
- 1st meeting of the “body” early 2019
- ...

Unlike the misconception of many people, sci-fi is not written to predict the future. It just makes a list of possibilities of the future, ...

But one thing is certain: in the long run, for all these countless possible futures, **any future without space travel will be bleak**, no matter how prosperous our own world becomes.

Ci-Xin Liu

Unlike the misconception of many people, sci-fi is not written to predict the future. It just makes a list of possibilities of the future, ...

But one thing is certain: in the long run, for all these countless possible futures, **any future without space travel + great collider will be bleak**, no matter how prosperous our own world becomes.
