

# The 7th Asian Triangle Heavy-Ion Conference (ATHIC 2018)

## Sunday, 4 November 2018

Plenary III (8:40-10:45) Chair: Kenta Shigaki - Activity Center 5th floor (08:40 - 10:45)

time	[id] title	presenter
08:40	[96] MAGIC - how Matter's extreme phases can be revealed in Gravitational wave observations and in relativistic heavy Ion Collision experiments	STOECKER, Horst
09:05	[97] Small system flow at LHC	CHEN, Zhenyu
09:30	[98] Recent development in hydrodynamic description of small colliding systems	YAN, Li
09:55	[99] Full 3D dynamical modeling based on fluctuating hydro	MURASE, Koichi
10:20	[100] Machine learning for simulation of hydro evolution	SONG, Huichao
