

The 7th Asian Triangle Heavy-Ion Conference (ATHIC 2018)

Sunday, 4 November 2018

Parallel II.4 Chair: Min He - Room 2106, Teaching Building #2 (16:00 - 18:00)

time	[id]	title	presenter
16:00	[188]	Quarkonium measurements in heavy-ion collisions at STAR	YANG, Qian
16:17	[189]	Identify the Quantum Effects of Heavy Quarkonium in QGP	CHEN, Baoyi
16:34	[190]	Heavy Quarkonium Dissociation by Thermal Gluons in the QGP	CHEN, Shi'e
16:51	[191]	Evolution of quarkonia states in rapidly varying strong magnetic field	BAGCHI, Partha
17:08	[192]	J/psi production in p-Pb collisions with the ALICE detector	HAYASHI, ShinIchi
17:25	[193]	Quarkonium production as a function of charged particles multiplicity in pp collisions measured by ALICE at the LHC	DING, Yanchun
17:42	[194]	Measurements of charmonium production in p+p collisions at STAR	LIU, Zhen
