

The 7th Asian Triangle Heavy-Ion Conference (ATHIC 2018)

Sunday, 4 November 2018

Parallel I.3 Chair: Defu Hou - Room 2105, Teaching Building #2 (14:00 - 15:42)

time	[id] title	presenter
14:00	[165] Universal relations between nonGaussian fluctuations in heavy-ion collisions	Mr DENG, Jian
14:17	[166] Current correlations and dynamics near the QCD crossover	SHARMA, Rishi
14:34	[167] How to locate the QCD phase boundary by scanning observable in the phase plane	ZHANG, yanhua
14:51	[168] Phase diagram of two-color QCD matter at finite baryon and axial isospin densities	CHAO, Jingyi
15:08	[169] Kibble-Zurek scaling in diffusive dynamics	WU, Shanjin
15:25	[170] Thermodynamics of a gas of hadrons with interaction using Smatrix formalism	DASH, Ashutosh
