

SUSY Search activities at IHEP

Thursday, 20 December 2018 14:00 (15 minutes)

The institute of high energy physics (IHEP) plays a leading role in various SUSY searches: inclusive and electroweak SUSY searches with light leptons or taus. The talk gives an overview of SUSY search activities at IHEP, as well as the near-future plan and the long-term prospect.

Type

Parallel talk

Sessions (parallel only)

Beyond Standard Model
