

Inclusive and Electroweakino SUSY search with leptons

Thursday, 20 December 2018 14:15 (15 minutes)

As the major SUSY search group in China, we have participated in many kinds of SUSY scenario searches including inclusive and electroweakino (EWK) SUSY searches with leptons. This talk shows you the results we had during run2 for inclusive Same-Sign or three lepton (SS/3L) search, inclusive one lepton search, and EWK C1N2/C1C1 with two taus search.
