

# Weekly report

- Last week I spent several days on another homework, I'm sorry for didn't come to office.
- Last week I still try to use MoreWeb to run the noise root file, it shows:

```
/home/konglt/MoReWeb/Analyse/AbstractClasses/GeneralTestResult.py:439: UserWarning: cannot open config parameters dat file /home/konglt/MoReWeb/test/M0823_FullQualification_2013-05-31_14h38m_1370003934noise/000_Fulltest_p17/configParameters.dat
  warnings.warn('cannot open config parameters dat file {file}'.format(file=fileName))
/home/konglt/MoReWeb/Analyse/AbstractClasses/GeneralTestResult.py:439: UserWarning: cannot open config parameters dat file /home/konglt/MoReWeb/test/M0823_FullQualification_2013-05-31_14h38m_1370003934noise/002_Fulltest_m10/configParameters.dat
  warnings.warn('cannot open config parameters dat file {file}'.format(file=fileName))
Working on: {'TestDate': '1370003934noise', 'QualificationType': 'FullQualification', 'ModuleID': 'M0823'}
--
    Populating Data
either no or multiple .log files found! some features are not available. Please name the .log file the same as the .root file to avoid ambiguousness if more than 1 logfiles are present in the folder.
```

- I still have difficulties in the log and dat files.
- May be I should change my research task next month.
