

XVIII International Conference on Hadron Spectroscopy and Structure  
(HADRON2019)

Contribution ID: 197

Type: **Plenary**

## Theory aspects of the XYZ and Pc states

*Monday, 19 August 2019 10:45 (35 minutes)*

This talk reviews the theoretical aspects of the XYZ and Pc states. Triangle singularities will also be discussed.

**Primary author:** Prof. ZHAO, Qiang (Institute of High Energy Physics, Chinese Academy of Sciences)

**Presenter:** Prof. ZHAO, Qiang (Institute of High Energy Physics, Chinese Academy of Sciences)

**Session Classification:** Plenary session

**Track Classification:** Plenary
