# Proton and Neutron Irradiation

- Visited CIAE this Tuesday (Xin, Yuhang, Yunyun, and Prof. Qi Ming from NJU)
  - Discussed baseline plan (see talk by Yuhang)
  - Better to be done before June
  - Need to confirm with the budget by us!
  - It is possible to build a dedicated line for us in the long run.
- Contacted CAEP (China Academy of engineering Physics) for Neutron Irradiation
  - Need to decide if we should do it for NDL sensor and budget (see talk by Yuhang)
