

IHEP sensors in the next test beam at DESY - (2)

- **What is the status of the tests on the sensors?**
 - IV and CV at room temperature and -30°C
 - Operation voltages
 - Could you please provide the list of maximum voltage point with the operation ones
- **Are the sensors bonded to the UCSC boards?**

IHEP sensors in the next test beam at DESY - (2)

- **How do you plan to send the sensors?**
 - Cern or directly to DESY
- **Shifts**
 - Subscribed for some shifts during the week
 - Contacted our IHEP students based in DESY to take also some shifts
