

IC/IB Report and Discussion

Yuanning Gao, Paolo Giacomelli

yuanning.gao@pku.edu.cn, paolo.giacomelli@bo.infn.it

CEPC current situation

CEPC current situation

- We are currently in the post-CDR phase

CEPC current situation

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community

CEPC current situation

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA

CEPC current situation

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- **Green** light towards the end of **2022**?

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- **Green** light towards the end of **2022**?
- Need to prepare for the period bringing up to the TDR (**2023-24**?)

- ◎ We are currently in the post-CDR phase
- ◎ CEPC project is well established in the International Physics community
- ◎ Endorsed by ICFA
- ◎ Hope CEPC is mentioned in the European Strategy Update
- ◎ Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- ◎ **Green** light towards the end of **2022**?
- ◎ Need to prepare for the period bringing up to the TDR (**2023-24**?)
 - ◎ Intense R&D program on detectors essential

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- **Green** light towards the end of **2022**?
- Need to prepare for the period bringing up to the TDR (**2023-24**?)
 - Intense R&D program on detectors essential
 - Will need adequate resources and funding up to the TDR

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- **Green** light towards the end of **2022**?
- Need to prepare for the period bringing up to the TDR (**2023-24**?)
 - Intense R&D program on detectors essential
 - Will need adequate resources and funding up to the TDR
 - Up to the TDR CEPC will be one common International Collaboration

- We are currently in the post-CDR phase
- CEPC project is well established in the International Physics community
- Endorsed by ICFA
- Hope CEPC is mentioned in the European Strategy Update
- Hope CEPC gets selected in the list of 3-5 International programs supported by China in 2020
- **Green** light towards the end of **2022**?
- Need to prepare for the period bringing up to the TDR (**2023-24**?)
 - Intense R&D program on detectors essential
 - Will need adequate resources and funding up to the TDR
 - Up to the TDR CEPC will be one common International Collaboration
 - After the TDR, two International Collaborations will naturally form around the two selected detectors

Towards an International Collaboration

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (**end of 2019**)

Towards an International Collaboration

- ◎ Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (end of 2019)
- ◎ First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (end of 2019)

Towards an International Collaboration

- ◎ Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (**end of 2019**)
- ◎ First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (**end of 2019**)
- ◎ This list will define the International Board (IB) of Institutes (**January 2020**)

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (**end of 2019**)
- First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (**end of 2019**)
- This list will define the International Board (IB) of Institutes (**January 2020**)
- Define a first simple, non-binding, Memorandum of Understanding (MoU) (**March 2020**)

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (**end of 2019**)
- First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (**end of 2019**)
- This list will define the International Board (IB) of Institutes (**January 2020**)
- Define a first simple, non-binding, Memorandum of Understanding (MoU) (**March 2020**)
 - Will show and later circulate a first draft of a possible MoU

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (end of 2019)
- First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (end of 2019)
- This list will define the International Board (IB) of Institutes (January 2020)
- Define a first simple, non-binding, Memorandum of Understanding (MoU) (March 2020)
 - Will show and later circulate a first draft of a possible MoU
 - Signature of MoU by interested Institutes (June 2020 onwards)

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (**end of 2019**)
- First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (**end of 2019**)
- This list will define the International Board (IB) of Institutes (**January 2020**)
- Define a first simple, non-binding, Memorandum of Understanding (MoU) (**March 2020**)
 - Will show and later circulate a first draft of a possible MoU
 - Signature of MoU by interested Institutes (**June 2020 onwards**)
- The IB will then become the body that endorses the most important decisions of the collaboration

Towards an International Collaboration

- Need to agree on, and later endorse, the procedures that will lead to the formation of the International Collaboration (end of 2019)
- First "easy" thing to do: prepare an e-mail list with 1-2 representatives for each Institute interested in participating to CEPC (end of 2019)
- This list will define the International Board (IB) of Institutes (January 2020)
- Define a first simple, non-binding, Memorandum of Understanding (MoU) (March 2020)
 - Will show and later circulate a first draft of a possible MoU
 - Signature of MoU by interested Institutes (June 2020 onwards)
- The IB will then become the body that endorses the most important decisions of the collaboration
 - Work in close connection with the Project Leader and endorse together the important CEPC decisions
