

The 2019 International Workshop on the High Energy Circular Electron Positron Collider

Monday, 18 November 2019

BSM - A415 (14:00 - 16:05)

-Conveners: 昊 ZHANG

time	[id] title	presenter
14:00	[154] The Electroweak Phase Transition: A Collider Target	RAMSEY-MUSOLF, Michael
14:40	[156] Shape of Higgs potential at future colliders	YU, Jianghao
15:20	[155] The precision tests of the complex singlet extension to the SM at the future e^+e^- colliders	Dr CHEN, NING

BSM - A415 (16:30 - 18:30)

-Conveners: Jianghao Yu

time	[id] title	presenter
16:30	[157] Testing naturalness of MSSM and Twin Higgs models with Higgs measurements	Dr SU, Wei
17:10	[159] Probing dark matter particles at CEPC	Prof. LIU, Zuowei
17:40	[158] Measuring Phase Angle in the Higgs-Bottom Interaction at Higgs Factory	ZHANG, 昊
18:10	[241] Heavy Quarkonium Production at the CEPC	HE, Zhiguo
