

The 2019 International Workshop on the High Energy Circular Electron Positron Collider

Monday, 18 November 2019

Gaseous Detector (14:00 - 16:05)

-Conveners: Francesco Grancagnolo; Huirong Qi

time	[id]	title	presenter
14:00	[143]	TPC technologies using MPGDs	Prof. GASIK, Piotr
14:30	[144]	Status and progress of TPC detector module and prototype R&D	Dr QI, Huirong
15:00	[145]	Status and progress of FEE ASIC chip R&D for TPC	Dr LIU, Wei
15:25	[146]	Pixel Ingrid TPC module for collider	Dr LIGTENBERG, Kees

Gaseous Detector - A511 (16:30 - 18:30)

-Conveners: Huirong Qi; Leszek Ropelewski; Hongyu ZHANG

time	[id]	title	presenter
16:30	[149]	Progress of High time resolution of MRPC	Dr YU, Yancheng
16:55	[150]	Development of high-performance DLC resistive electrodes for MPGDs	ZHOU, yi 吕, 游
17:20	[151]	Double and Triple Micro-Mesh gaseous structures for ultra-low ion back-flow applications	Mr ZHANG, Zhiyong
17:45	[148]	Progress of MEG2 drift chamber R&D	GRANCAGNOLO, Francesco
